

Students / Design / 2.4 Technologies and styles / What style and materials are best?

## What style and materials are best?

List the pros and cons of each material using the template below.

▶ **Material:**

.....  
.....  
.....

▶ **Examples of how and where it is used:**

.....  
.....  
.....

▶ **Positive aspects of this material:**

.....  
.....  
.....  
.....

▶ **Negative aspects of this material:**

.....  
.....  
.....  
.....

**Sustainability**

▶ **To make:**

.....  
.....  
.....  
.....

▶ **When used in a building:**

.....  
.....  
.....  
.....

Is this a good choice for your building project? Explain your reasons:
